

CLIMATE WALL-MOUNTED ENCLOSURES X-CC

Climate wall-mounted enclosures X-CC

All-weather cabinets with the microclimate control system. Are used for installation of the passive, active telecommunication equipment.

Enclosures are created according to the following requirements of IT specialists:

- Modern design
- Wide choice of standard sizes
- Protection degree IP66
- Resistance to external mechanical influence of not less IK10
- All-round foamed-in PU seal against mechanical deformation and influence of the external environment
- The anticorrosive covering is reached by phosphatization operation, and the decorative covering is executed by wear proof powder paint of light gray color (RAL7035)
- Existence of accessories: mounting panels, rain roofs, fans, etc
